

ABHAY SHARMA

Machine Learning Engineer

☎ +91-8869870091 ✉ main.abhaysharma@gmail.com 🔗 linkedin.com/in/abhaysharma001 🐙 [Github](#) 🌐 [Portfolio](#)

Summary

Machine Learning Engineer skilled in building and deploying end-to-end ML systems using PyTorch, FastAPI, Docker, and AWS. Hands-on experience with NLP, model monitoring, and production-grade ML pipelines through real-world projects and internships.

Skills

Machine Learning & Deep Learning: Scikit-learn, PyTorch (ANN, CNN, RNN, LSTM)

MLOps & Deployment: FastAPI, Docker, AWS EC2, ML Pipelines, Model Monitoring (Evidently AI)

NLP & AI: Text Classification, Word Embeddings, LLM Evaluation & Response Analysis

Programming & Data: Python, SQL, Pandas, NumPy, Power BI

Experience

LLM Post-Training Intern

Jan 2026 – Present

Ethara AI (Remote)

- Evaluated **1000+ LLM responses** for correctness, safety, and instruction adherence, contributing to improved dataset quality for model alignment.
- Applied structured annotation and analysis to identify failure patterns, supporting LLM evaluation and performance improvement workflows.

Machine Learning Intern

Jul 2025 – Aug 2025

Softpro India Computer Technologies

- Performed **data preprocessing and feature engineering** using Pandas and NumPy, improving dataset quality for ML model training.
- Built and evaluated ML models and developed a **Streamlit-based interface** for prediction visualization, aligning with end-to-end ML pipeline practices.

Projects

Business Analytics System | Python, FastAPI, Docker, AWS EC2, Scikit-learn | GitHub

Sep 2025 – Dec 2025

- Built and deployed an **end-to-end NLP pipeline** for text classification (85% accuracy) using Scikit-learn, served via **FastAPI REST APIs**.
- Containerized full system (**backend, frontend, database**) using Docker & Docker Compose and deployed on AWS EC2 for scalable inference.

ML Model Data Drift & Performance Monitoring | Python, Scikit-learn, Streamlit, Evidently AI | GitHub Jan 2026

- Developed a **model monitoring system** to detect data and prediction drift using Evidently AI for production ML pipelines.
- Built an interactive **Streamlit dashboard** for real-time dataset upload, drift analysis, and model performance tracking.

Awards & Certifications

- **Python with Machine Learning – Softpro India (2025):** Completed hands-on training covering data preprocessing, feature engineering, and ML model development using Scikit-learn.
- **Cisco: Programming Essentials in Python (2023):** Built strong foundations in Python programming, problem-solving, and core data structures.

Education

B.Tech Computer Science

Expected: Aug 2025

Moradabad Institute of Technology, Moradabad

CGPA: 8.2 / 10
